

The Goo Goo Dolls, Naked

Yeah I'm fading
And I call out
No one hears me
Never been, never felt, never thought I'd say a word

Yeah I'm fading
And I call out
No one hears me
Never been, never felt, never thought I'd say a word

Weighed down
Safe now

You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Are never heard by anyone
Never heard by anyone

Yeah I'm hiding
In the fallout
Now I'm wasted
They don't need me, don't want me, don't hear a word I say

Weighed down
Safe now

You're naked inside your fear
You can't take back all those years
Shots in the dark from empty guns
Are never heard by anyone
Never heard by anyone

Inside your head
No one's there
And I don't think I'll ever be
And I don't care

You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Are never heard by anyone, by anyone, by anyone
