

The Goo Goo Dolls, So Long

Don't take much looking back to know I took my coffee black then
Nothings different now but nothing seems the same and it's alright
Your optimistic views your hundred dollar running shoes and
Carpel tunnel syndrome we all had a laugh about it
I'd love to stick around but I gotta tell you all

So long
But I didn't wanna tell you all so long

Don't take much looking back to know I faked that heart attack then
And nothings different now but nothing seems the same and it's alright
You always spoke the truth from circa disco abba boots and
All that showbiz talk we all had a laugh about it
I'd love to stick around but I gotta tell you all

So long
But I didn't wanna tell you all so long

I gotta get back to where I belong

So long
But I didn't wanna tell you all so long
