

THE HARDKISS, Festival

You've been telling so long
That I need to be stronger
Every day I knock out the doors
Just to stand a bit longer

To reach the light
But through this fight
Can I wonder?
Can I wonder?

Oh my God
Hear me tonight
And turn these

Bombshells into fireworks
Bullets into raindrops
Our pain into my songs
I wanna feel this world as festival

Hey, stop talking about love
You're a beautiful liar
What I've got?
A castle of sand
And a Fenix on fire

This story goes round and round
Together we're lost and found
In the middle of storm

Oh my God
Hear me tonight
And turn these

Bombshells into fireworks
Bullets into raindrops
Our pain into my songs
I wanna feel this world as festival
Bombshells into fireworks
Bullets into raindrops
Our pain into my songs
I wanna feel this world as festival

Bombshells into fireworks
Bullets into raindrops
Bombshells into fireworks
Bullets into raindrops
Our pain into my songs
I wanna feel this
Wanna feel this world as festival
