

The Hellcopters, Take Me On

Come on, I want you, take me on
Take me in, we should be long gone
Been long looking, where have you been
I'll kick down the door, if you don't let me in

Take me on, take me in
Roll up your sleeves and go, let it begin
Well take a side, and we'll take from this
If you're ready, come and let me, show me that you're down

Come on and give me all that you got
Well give me your best, now wont you give me a shot
She not been looking, where have you been
Going chasing the tail of what you could have been

Take me on, take me in
Roll up your sleeves and go, let it begin
Well take a side, and we'll take from this
If you're ready, come and let me, show me that you're down

Take me on

Well, come on I want you, take me on

(Solo)

Take me on, take me in
Roll up your sleeves and go, let it begin
Well take a side, and we'll take from this
If you're ready, come and let me, show me that you're down

Take me on...
