

The Hives, Cellblock

Turn your back I'll take anything
Turn your back and I'll be out the door
Having done that cleptothing once more

I won't learn and I won't change I won't learn how to rearrange
This is the way i live, this is the way I'll die

Lock me up in a cell

Your words don't mean anything weather you say you like me or not
Now you say you wanna se me laugh (caught)

I won't learn and I won't change
Only extended to an ever greated range

Lock me up in a cell
