The Hives, Hell No

I heard her comin'
From miles away
I heard her practicing, wondering what she's gonna say
She came up to me
Told me all them lies
I wanna believe every word, but see I'm on her 9 to 5

I heard her comin'
From miles away
I heard her practicing, wondering what she's gonna say
She came up to me
Told me all them lies
I wanna believe every word, but see I'm on her 9 to 5

She got me good, got me really really good
(She got me good, got me really really good)
She want's me back, do you think that I should?
(She want's me back, do you think--)
Hell no!

I learned but 2 things
Watching this game
People who play it had absolutely no shame
There are no rules
No turnabouts
And if you lose, you better stand tall

Hell no!

So why bother? Why even care?
While your away, I've been sleeping in bed
Thinking about you, longing for your touch
Don't you stop trying to...trying to...look

Yeah! I heard her comin'
From miles away
I heard her practicing, wondering what she's gonna say
She came up to me
Told me all them lies
I wanna believe every word, but see I'm on her 9 to 5

I learned but 2 things
Watching this game
People who play it had absolutely no shame
There are no rules
No turnabouts
And if you lose, you better stand tall

She'll get ya, get ya, get ya really, really good
(She got me good, got me really really good)
She want's me back, do you think that I should?
(She want's me back, do you think--)
HELL NO!
