

# The Hollies, Do You Believe In Love

Do you believe in love  
Do you believe in love  
There ain't no doubt about it  
Everybody's gonna jump up and shout  
About do you believe in love

Do you believe in love  
Do you believe in love  
There ain't no doubt about it  
Everybody's gonna jump up and shout  
About do you believe in love

Taking a walk down in the street  
There's bound to be someone you can meet  
Someone who believes in love  
Someone who only needs a shove

Going together hand in hand  
Don't need a reason for what's planned  
Don't mess around, you gotta do it right  
Do it right, you can stay all night

Do you believe in love  
Do you believe in love  
There ain't no doubt about it  
Everybody's gonna jump up and shout  
About do you believe in love

Do you believe in love
