

The Hollies, Don't You Ever Care?

Don't you even care what's gonna happen to me, whoa
You're turning me loose and I never asked to be free, no
After all that we've been through
How can you let it end
I wanna be your lifetime man
But you wanna be my friend

Don't you even care what's gonna happen to me, whoa
Don't you even care what's gonna happen to me

How will I spend my days
What will I do each night
I could go out alone
Somehow it don't seem right

Do, yeah
Do, yeah

Don't you even care what's gonna happen to me, whoa
Don't you even care what's gonna happen to me

Don't you ever think about anybody but you
After you have gone, babe
What am I gonna do, oh
So, come on, baby, change your mind
Please stay here with me
Come on, baby, we'll be fine
Just you wait and see

Don't you even care what's gonna happen to me, whoa
Don't you even care what's gonna happen to me
Do, yeah Do, yeah Do yeah
