

# The Hollies, I'll Be Your Baby Tonight

(Dylan)

Close your eyes, close the door  
You don't have to worry anymore  
I'll be your little baby tonight

Shut the light, shut the shade  
You don't have to be afraid  
I'll be your baby tonight

Well the mockingbird's gonna sail away  
You won't regret it  
The big fine moons gonna shine like a spoon  
You won't regret, you won't forget  
To get your shoes off  
do not fear  
Bring that bottle over here  
I'll be your baby tonight

verse 3

I'll be your baby tonight
