

The Hollies, Look At Life

(Sylvester / Clarke)

Look at life, take a look around you
Look at life, doesn't it astound you
See the colors of the sky
Watch the colors of a rainbow
We're so lucky, you and I
Look at life

It's there for us
So why don't we use it
Four seasons of the year
All you do is choose it

Warm summers bring the sun,
and with the falling leaves the autumn
All the new things come with spring
Look at life

Warm summers bring the sun,
and with the falling leaves we get the autumn,
the autumn

You see a young boy pick a flower
Why does he do it
He picks it for the one he loves
That's why he does it

He sees the colors of the sky,
watches the colors of a rainbow
We're so lucky, you and I
Look at life

Look at life Look at life Look at life
Look at life Look at life Look at life
