

# The Hollies, Maybe It's Dawn

Out of the sky the rain comes driving down  
Washing away the hills of darkest brown  
Heading out through another country town  
White lace curtains  
Something certainly gets into me  
Call it jealousy  
And when I'm so far away

Somewhere the light shines bright along the highway  
Somewhere inside me  
Somewhere above the night  
And maybe you've gone your way  
And I'll go my way  
Somewhere inside me  
Somewhere inside the night  
Maybe it's dawn

Out of my heart my love comes falling free  
Healing the pain that burns you and me  
Heading towards another warm country  
Smiles are dancing shades entrancingly  
Gets into me  
Call it fantasy  
And when I'm so far away

Somewhere the light shines bright along the highway  
Somewhere inside me  
Somewhere above the night  
And maybe you've gone your way  
And I've gone my way  
Somewhere inside me  
Somewhere inside the night

Somewhere the light shines bright along the highway  
Somewhere inside me  
Somewhere above the night  
And maybe you've gone your way  
And I've gone my way  
Somewhere inside me  
Somewhere inside the night

And maybe it's dawn  
In the city where I'll be  
Maybe it's dawn  
When you're near me
