

The Hollies, My Love

Ooh my love, ooh ooh my love
Please don't take my advances too lightly
Don't be hasty, let the feelin' come straight from your heart
You've been burned too many times before

Accept my love I'm gonna give it to you
Please don't forsake it and take it and make it my love

I can see what you're thinkin' but I won't let you down
Let your love show and don't think of the past
Come tomorrow you'll be happy with the feeling you've found
I'm no fool and I ain't clownin' around

And if you should want to throw it all away,
It'll be you who doesn't want to
Want to make me stay
Come on and do it my way

Ooh my love, ooh ooh my love

And if you should want to throw it all away,
It'll be you who doesn't want to
Want to make me stay
Come on and do it my way

Please don't take my advances too lightly
Let your love show and don't think of the past
Accept my love, I'm gonna give it to
Please don't forsake it and take it and make it
Please don't forsake it and take it and make it my love

Ooh my love, ooh ooh my love
