

# The Hollies, Please Let Me Please You

What did you do today  
You turned the other way  
I tried to kiss you,  
But you laughed in my face

It's a thing to do  
Knowing that I love you  
Don't be too hasty;  
The tables will turn

Please, please, please,  
Let me please you  
Please let me please you  
Please let me, Louise  
Please, please, please,  
Let me please you  
Please let me please you  
Please let me, Louise

Why are you different now  
Did I hurt you somehow  
If so, then tell me,  
But don't laugh in my face

If I said something strong,  
I'll admit I was wrong  
Come on and tell me,  
But don't laugh in my face

Please, please, please,  
Let me please you  
Please let me please you  
Please let me, Louise  
Please, please, please,  
Let me please you  
Please let me please you  
Please let me, Louise

I always treat you right  
Why do you wanna fight  
Go if you want to,  
But don't laugh in my face

If I try kissing you,  
Don't make me out a fool  
Come and tell me,  
But don't laugh in my face

Please, please, please,  
Let me please you  
Please let me please you  
Please let me, Louise  
Please, please, please,  
Let me please you  
Please let me please you  
Please let me, Louise
