

The Hollies, Satellite Three

(Clarke / Benson)

I'm a satellite three
Two others before me
I spend my life revolving round your sun
I'm a satellite three
For me there's no recovery
I'm not in your gravity
I'm in limbo

You took me to the limit of my capabilities
And though I'm alien to you
Doesn't mean that I am through
Though I've endless fuel to burn
No way to turn
No way to turn

I'm a satellite three
Anyone down there watching me
Send me a signal I'll reply
Don't let me die

Break

You took me to the limit of my capabilities
And though I'm alien to you
Doesn't mean that I am through
Though I've endless fuel to burn
No way to turn
No way to turn

I'm a satellite three
Anyone down there watching me
Send me a signal I'll reply
Don't let me die
Don't let me die
Don't let me
