

The Hollies, Star

(Clarke / Sylvester / Hicks)

I was jiving along in my big cadillac
saw a thumb going up, I said Driver go back
Played her a track from my latest LP
Getting bad vibes she hadn't recognized me

She said she didn't know me but my name's been in lights
giant size neons on the strip every night
The camera man did the best that he can
Still she said I don't know you I just can't understand

I'm a star, yeah
I'm a star (Baby bathe in my glow)
I'm a star, anyway

I was trying to be nice but I'm not into that
I usually make it without any chat

She was taking it easy, taking it slow
I said Come on baby, I'm ready to go

I'm a star, yeah
I'm a star (Baby bathe in my glow)
I'm a star, anyway

She said Drop me off here and to my surprise
you wouldn't believe it, it was Beverly Drive
Some sort of commotion, what's happening here
We've arrived at her premiere, I shouldn't be here

She's a star, yeah
She's a star, I didn't know it
She's a star anyway
