

# The Hollies, Step Inside

Side, step inside

You can knock on my door anytime you're passing by

You don't need an invitation, step inside

We'll have tea and crumpets toasted by the fireside

You don't need an invitation, step inside

Step inside my doorway

There's no admission fee at all

If you're in the neighborhood, you only have to call

I'll be glad to see you, it just cannot be denied

It's been a long time since I held you, step inside

Don't tell your mother about me

She'll only get angry knowing you've come back

What her heart can't see can't hurt her

So take my hand and step inside, take my hand and step inside

Don't tell your mother about me

You know she'll only get angry knowing you've come back

What her heart can't see can't hurt her

So take my hand and step inside, take my hand and step inside

If it gets too late, I have a bed that you can use

You don't need an invitation

If you feel the inclination

You just call on speculation

Step inside

Side, step inside

Step inside

Step inside

Step inside
