

# The Hollies, We're Through

I should be better off without you  
You take a pride in making me blue  
I'm telling you my friend  
It's got to be the end  
We're through

I told you time and time again  
You told me he was just a friend  
But I found out some way  
I've seen him every day  
With you

'Cause you never treat me tenderly  
You got no reason for leaving me  
'Cause I can't leave you alone  
'Cause I knew from the start  
You'd be tearing me apart  
Sooner or later

'Cause you never treat me tenderly  
You got no reason for leaving me  
'Cause I can't leave you alone  
'Cause I knew from the start  
You'd be tearing me apart  
Sooner or later

And now my crying days are through  
No longer shed a tear for you  
I'm telling you my friend  
It's got to be the end  
We're through  
We're through  
We're through
