The Hollies, We're Through

I should be better off without you You take a pride in making me blue I'm telling you my friend It's got to be the end We're through

I told you time and time again You told me he was just a friend But I found out some way I've seen him every day With you

'Cause you never treat me tenderly You got no reason for leaving me 'Cause I can't leave you alone 'Cause I knew from the start You'd be tearing me apart Sooner or later

'Cause you never treat me tenderly You got no reason for leaving me 'Cause I can't leave you alone 'Cause I knew from the start You'd be tearing me apart Sooner or later

And now my crying days are through No longer shed a tear for you I'm telling you my friend It's got to be the end We're through We're through We're through
