

The Hollies, When Your Light's Turned On

(Hicks / Clarke / Nash)

If I see the light's on in your room
if I see the light's on I call on you
It's a signal that he's gone
So I'll call you when your light's turned on

And I'll be happy to wait up until he goes
And I'll be happy to wait up until I know
that the coast's clear it's all right
So I'll call you when your light's turned on

Everything you say about me gets right home
That's why I put up with you this way
Everything you say about me gets right home
I wish that he would go and I could stay

that the coast's clear it's all right
So I'll call you when you're light's turned on

verse 3

Just for how long can our love go on like this
If you thought more about me you'd end all this
But when your light's on it's all right
So I'll call you when you're light's turned on
