

# The Honorary Title, Stay away

Are you not the slightest bit confused  
Just the truth  
The speed at which we move blends so well  
It's too soon  
Separate yourself from what compels you to relinquish us  
Push your weight on to me... entirely  
Stay away from me, stay away from me... now  
Less your gonna see, Less your gonna see me out  
No, I can't dance less it's slow or sad  
To a song that's far less obvious  
If your using me, do it slowly  
Make it last until I have to go  
Trust me when I say just a few more weeks  
Don't move  
Resist temptation  
Or do you see fit, just choose  
Separate yourself from what compels you to relinquish us  
Push your weight on to me... entirely  
Stay away from me, stay away from me... now  
Less your gonna see, Less your gonna see me out  
No, I can't dance 'less it's slow or sad  
To a song that's far less obvious  
If your using me, do it slowly  
Make it last until I have to go  
No, I can't dance 'less it's slow or sad (did you notice?)  
To a song that's far less obvious (did you notice?)  
If your using me, do it slowly (did you notice?)  
Make it last until I have to go (did you notice that i...?)  
No, I can't dance 'less it's slow or sad (did you notice?)  
To a song that's far less obvious (did you notice?)  
If your using me, do it slowly (did you notice?)  
Make it last until I have to go (did you notice that i...?)  
Stay away from, stay away from, stay away from me  
Stay away from, stay away from, stay away from me  
Stay away from, stay away from me
