

The Hooters, I'm Alive

I've got a condition for which there is no cure
I'm in a position that everyone prays for
Got a sound in my head that could wake up the dead
Like the Who singing Summertime Blues
Got no thorn in my side, got no secrets to hide
I'm completely and utterly amused

I'm alive, I'm alive
It's a beautiful day and I'm happy to say
I'm alive, I'm alive
And wherever I go it's amazing to know
I'm alive

From running as fast as I could getting nowhere
I'm standing incredibly steadily somewhere
Got my hand on a jug and a girl that I love
And it's driving me out of my mind
I'm a bird on the wing with the world on a string
And I'm feeling incredibly fine

I'm alive, I'm alive
It's a beautiful day and I'm happy to say
I'm alive, I'm alive
And wherever I go it's amazing to know
I'm alive

I'm looking older now than when I was a kid
But I'm feeling younger now than I ever did
And I've got no situations playing tricks upon my mind
I'm feeling Christmas in the middle of July

In the morning, in the night
Though I walk through the valley of the shadow
You are the light of my life
And the song in my soul
And the beat of my heart
And the rock in my roll

I'm alive, I'm alive
It's a beautiful day and I'm happy to say
I'm alive, I'm alive
And wherever I go it's amazing to know
I'm alive, I'm alive, I'm alive, I'm alive...
