

The Horrors, Count In Fives

Count

Yeah, I count in fives.

I do it everytime.

And if another number confronts me

I will cut you in half.

Irrespective of the subject I will make it apply,

No matter what the object I will count in fives,

Tell me the location I will stand outside...

Oh yeah,

If you give me too many,

I will multiply.

Force too many into my hand

And I will not comprehend.

Irrespective of the subject I will make it apply,

No matter what the object I will count in fives,

Tell me the location I will stand outside...

Oh yeah,

Another number confronts me

And I force it to divide.

The first time with someone holding my hand.

The second, me holding it out.

Irrespective of the subject I will make it apply,

No matter what the object I will count in fives,

Tell me the location I will stand outside...

Oh yeah,

If you try to deceive me

I feel it burn in my hand.

Now watch the numbers run to me

As I count them in fives
