

The HU, Black Thunder (ft Serj Tankian & DL of E

Oh, the battle
To the spirit
Through the darkness
For the fearless
To the ones who stand and fall
We are the warriors
For the father, to the living
For the prayers of new beginnings
To the ones who sing our song
We are the warriors

Ooh
In the black thunder of heaven
Ooh
In the black thunder of heaven

Hands up, better watch your back
Hear the lightning crash
Oh, black thunder
Rise up to the beating song
And the beating drum
Of black thunder
Black thunder
Black thunder

This is the sound of
Black thunder
Black thunder
Black thunder

This is the sound of
Black thunder

From the shadows
To the daylight
From the dark clouds
To the blue skies
Through the gates of kingdom come
We live forever

With the spirit of our heroes
Through the mother
Of our people
Forced through eternal flames
We burn forever

Ooh
In the black thunder of heaven
Ooh
In the black thunder of heaven

Hands up, better watch your back
Hear the lightning crash
Oh, black thunder
Rise up to the beating song
And the beating drum
Of black thunder
Black thunder
Black thunder

This is the sound of
Black thunder
Black thunder
Black thunder

This is the sound of
Black thunder

Ooh
The black thunder of heaven

Black thunder
Black thunder

This is the sound of
Black thunder
Black thunder
Black thunder

This is the sound of
Black thunder
Black thunder
Black thunder

This is the sound of
Black thunder
Black thunder
Black thunder

This is the sound of
Black thunder
