

# The Human League, Liar

I can't help this feeling  
Every time you go away  
Something you're concealing  
Something you won't say  
Will you look in my eyes  
When I ask you where you've been  
Say what you've been doing  
Tell me who you've seen

Tell another tale  
Name another name  
Dish a little dirt  
To evade the frame  
Change the tale you tell  
From the one you swore  
Claim you never said  
What you said before

Liar  
Liar  
Liar  
Liar

Think you are the winner  
No one else is in the game  
You can keep the prizes  
You can keep the shame

Tell another tale  
Get a friend's support  
Add the fine detail  
As an afterthought  
Never any doubt  
Never any shame  
Under no account  
Ever take the blame

Liar  
Liar  
How can I stay  
When your words give you away  
Liar  
Liar  
How can I stay  
How can I stay

(Why should I stay  
Why should I stay  
Why should I stay  
Why should I stay)

Liar  
(Pathological)  
Liar  
How can I stay  
When your lies give you away  
Liar  
(You're a liar)  
Liar  
(Such a liar)  
How can I stay  
Is there one born every day

Liar

(You're a liar)  
Liar  
(Such a liar)  
How can I stay  
When your words drive me away  
Liar  
(Such a liar).
