

The Hush Sound, Medicine Man

Medicine man, you dance me across the country

Medicine man, you dance me across the sky

Medicine man, now my feet are dragging

Medicine man, can you hear my cry?

I don't wanna be

The one, the one, the one

That you forget

I don't, I don't, I don't

Just want to be your regret

Medicine man, I lay my head in your hands

Medicine man, you will clear my mind

Medicine man, can you heal my body?

Medicine man, can you hear my cry?

I don't wanna be

The one, the one, the one

That you forget

I don't, I don't, I don't

Just want to be your regret

I don't know where to begin

I don't know how to break

The bottle I'm living in

Do anything to take away

The memory of him

Can't you see that I have no way out

From leaving now?

Medicine man, clear my mind

Medicine man, whoa

Medicine man, hear my cry

Medicine man, no

Medicine man, you are here in my mind

Medicine man, oh

Medicine man, hear my cry

Medicine man, whoa

Medicine man, medicine man

Medicine man, whoa
