

# The Idle Race, Come With Me

Come with me

It's all so easy for me to see  
We can be  
Close together, for always forever  
You'll never believe but it's true

You will see  
The happy corners where we will be  
It's for real  
I'll sing to you all the songs that we knew  
That's not true don't be blue they're for you

Can you feel

It's spinning round like a great big wheel  
It's for real  
I'll sing to you all the songs that we knew  
That's not true don't be blue they're for you

Come with me  
Come with me

Come with me  
It's all so easy for me to see  
Come with me  
When I find that you're all on my mind  
That's the time I will say come with me
