The Incredible String Band, Lover Man

Baby come tell me 'bout your tree-house And your candy-strped pet mouse And your car that has feet Hey come tell me 'bout your eyebrows that meet And my baby won't you tell me 'bout your chilblains And your right eyeball's growing pains And your purple tractor that sings Hey come tell me all of those things

But if you want to tell me some more Think you can Oh babe tell me 'bout your lover man

You know I'm talking 'bout him
He's one that's strutting around
Each time I get out of town
You know the one that I mean
He's one that's stealing my scene away
Baby I'm talking 'bout him

Oh baby won't you tell me 'bout your black rose And the garden where your love grows Among the cabbages and beans Hey come tell me why your primroses are green

But if you want to tell me some more Think you can Oh babe tell me 'bout your lover man

You know I'm talking 'bout him
He's one that's strutting around
Each time I get out of town
You know the one that I mean
He's one that's stealing my scene away
Baby I'm talking 'bout him
He's one that's stealing my cream away
Baby I'm talking 'bout him
Talking 'bout your lover man
Talking 'bout him
