

# The Incredible String Band, Walking Along With You

There are many things'll give you a good time  
I have known a few  
But my lover it's you that makes my eyes shine  
And makes the sky so blue  
And it makes me feel so very good  
When I'm walking along with you

When we're walking along  
You've got the power you're so strong  
But you move your body like a midnight song  
I love you

Last night we made a meadow  
Bathed among the dew  
And out of buttercup's pale clear light  
I was born anew  
And it makes me feel so very good  
When I'm walking along with you

When we're walking around  
I see your feet kissing the ground  
Your arms make music without a sound  
I love you
