

The Incredible String Band, Weather The Storm

stormy weather in the world since the day I was born
stormy in the schoolhouse
stormy when I left my home
a few more storms won't freeze me
my love will keep me warm
one thing more I know for sure
I swear we're going to weather the storm

you, you had your soft brown eyes
pretty as I ever saw
want to see the sunset
I know where in the the shade of the big boys jaw
dance through the summer
dance through the spring
dance through winter and fall
one thing I know for sure
I swear you are the belle of the ball

I've been around this whole round world
many strange things I see
I know where I'm going and I know who's going with me
never fear I won't be cold
my love will keep me warm
one thing more I know for sure
I swear we're going to weather the storm
