The Innocence Mission, Our Harry

We will squint into the sun waving madly at the camera harry standing in the front and I will be sitting on his shoulders

When our harry sails in the summer when our harry will sail away our harry sails in the summer far from me across the sea

He said it is time now he does something and sent his hope to join the peace corps I can t think what I II do when my time comes I cannot see myself standing alone

But our harry sails in the summer our harry will sail away our harry sails in the summer far from me across the sea
