

# The (International) Noise Conspiracy, Do I Have To

Do I have to spell it out?

Hey I've got just one little thing to say

I've got a little secret if you want to come my way

Do I have to spell it out?

Yeah I've got you under my thumb

I've got my desires free to grab for everyone

'Cause you know that I wanted you

So please be careful with the words you choose

There is so much that we can do

Yeah I wanted you to be by my side

Everyone in here all of the time

Do I have to spell it out?

And you know that I always wanted you

And you know there is so much that we can do

And you know something about the words we choose

And if you ever think about loving

Please consider me

Yeah I've got just a little thing to say

an insurrection, a new direction coming our way

Do I have to spell it out?

And you know that I always wanted to be with you

And you know that together were no fools

And you know there is nothing that we cant do

And if you ever think about loving
