## The (International) Noise Conspiracy, Ever Felt C

All hope just died
Dwindled down and currupted with time
Promises and excuses made
Didn't feed our hunger, didn't make us feel saved
We ended up all alone
As dead prisoners in our cheap comfort zone
The doors locked and the windows shut
Another day feeling tired and fucked up

Felt cheated? Felt cheated? Felt cheated? Ever... Felt cheated? Felt cheated? Felt cheated? Yeah! Yeah! Yeah!

Spending days just wishing for Something that will offer us a little more Punch the clock and what then Sell ourselves to dollars and yen Always later, another time, Reward will come and we'll all feel fine Work & pray, yeah, live on hay You'll get pie in the sky when you die

Felt cheated? Felt cheated? Ever...
Felt cheated? Felt cheated? Felt cheated? Yeah!
Felt cheated? Felt cheated? Felt cheated? Ever...
Felt cheated? Felt cheated? Felt cheated?
