

# The Jam, The Night

it's right for the night,  
thousands of lights,  
show us the way.  
me and my mates,  
will have a good time  
in the amusement arcade.

unpack your bags,  
we're here at last  
for the birds that play ball  
This is it!  
it's what it's all about!  
we worked all week for this,  
let's go

Go to the pub,  
dance for a while  
have a drink or so  
please ourselves,  
do what we want  
tonight's ours  
to have fun

The night  
will soon be gone  
it goes too fast,  
let's not waste time  
no need to worry ourselves, now

The night,  
the night of our week  
one night  
we remember it well  
no one  
can take it away  
no one  
can deny us the night

the night  
one night

Hear the sea  
come tumbling in  
freezing us all  
feeling the breeze  
beating the pier  
as we try and sleep  
it feels so secure  
along with the sea I mean

what a pity  
our weekend's gone  
the sea remains  
but that's all  
we had a good time  
while we were here

Goodnight
