

The Jayhawks, Darling Today

Darling today that you need me
Darling today that I'm yours
Won't you let my hearts around you
Please let me be where you are

Chorus:

You alone, You alone
Make my dreams come true
You alone, You alone
You turn the colors twice
I will always be yours
Darling today

Darling today in the sunshine
Darling today in the sunshine
Calling me happy times, too
Close to happy times, too
Won't you remember me sometimes
Won't you remember me
Morning evening and night

(Chorus)

And once I took a great fall
Now it don't matter at all
La, la, la
La, la, la
La, la, la, la, la, la, la, la, la

Darling today when I'm near you
Only the two of us now
See that you feels, I'm still there
One that I loved for so long

You alone, You alone
Make my dreams come true
You alone, You alone
You turn the colors twice
I will always be yours
I will always be yours
I will always be yours
Darling today
