## The Jayhawks, Dead End Angel

(Olson) Gunflint Music BMI

Chorus:

Go to sleep my dead end angel Say goodnight to your precious one For I know you're empty handed And all the police carry guns

Whisper to me in the morning And I'll kiss your blues away For I know your body's aching And the lynch mob's on the way

Just to hear your footsteps climbing up the stairs Just to live one single day without a single care

(Chorus)

Just to hear your footsteps climbing up the stairs Just to live one single day without a single care

(Chorus) And all the police carry guns
