

# The Jayhawks, Hang on to nothing

Played by Pistoleros on the album: "Hang on to nothing"

Well, I took her for granted

So now I sleep at night when no one's home

And she said no more passion

So I took over living here alone

And it's so cold

And

Chorus:

She said maybe you don't understand

Living here is like living in hell

And I say

Hang on, hang on to nothing

We're just two people trying to make a stand

Hang on, hang on to nothing

We're just two people trying to make a stand

And I believe it's over

But it ain't never over 'till it's dawn

And I forgot to ask her

Were she coming or where she done

And I'm on the run

And, (Chorus)

And I took her for granted

So now I sleep at night when no one's home

And it's so cold

But, (Chorus)
