

# The Jayhawks, King of Kings

I dont have to warn ya  
Black clouds are coming  
Go out, get a hand gun  
Walk the streets of Houston  
Headlines to the west  
Skylines falling down  
I walked out this morning  
My moose skin was jiving  
I dont have to warn ya  
Black clouds are coming  
Headlines to the west  
Skylines falling down

Chorus:

People getting ready  
Yeah, people getting ready  
To meet the King of Kings  
To meet the King of Kings  
Out on the main line  
There's a pitch black highway  
The city after midnight  
Is up around the next bend  
Sunrise in the East  
Cities burning down  
(I feel burned down now)

(Chorus)

(Verse 1)

(I see falling down now)

(Chorus)

(I got to go now)

(Chorus)
