

The Jayhawks, Nevada, California

Left his day job behind
Every fool dies trying to give his back
Kicked around on the bum
Like a child I scolded
For broken toys
Can you help me to find Nevada, California
The last thing I did, was I tried to held her
The stationmaster is gone
Im your lovesick cousin that never wins
First your twist, then you turn
You're on life's icy mountain, dear passenger
Can you help me to find Nevada, California
Can you help me to find Nevada, California
The last thing I did, was I tried to held her
Nevada, California. Nevada, California
The stationmaster is gone
Behind the lies, you wonder, there lies a jewel
Could it be something's wrong
The love that won't talk to you, but seldom wins (seven??)
Can you help me to find Nevada, California
Can you help me to find Nevada, California, Nevada California
The last thing I did, was I tried to held her
