

The Jayhawks, Stick in the mud

I've been getting by
I've got no cross to bear
But I'm still getting there

Chorus:

You've got me down on my knees

Begging you please don't leave

Let me be nice to you

You're still my best friend

Who says this is the end

Why do good things divide

Why did they all choose sides

Slow steady wins the race

Slow steady wins the race

You've got the sweetest eyes

You just couldn't be mean

See you down on Skyline Drive

(Chorus) *3 (Fade)
