

The Jayhawks, Will I See You In Heaven

We were so close together
Yeah, you felt like a brother to me
Searching for a little bit of truth
But I found that it was living inside of you
Thought we could live forever
But there's more to life than we'll ever know
Tell me why'd you have to leave so soon
When I've got a thousand questions to ask of you
Will I see you in heaven
Shine your light from above
With your love I am never alone
Won't you carry me, won't you carry me home
Well, faith is the answer
Can you spare some to help guide me through
Swim across the ocean for a sign
Though you're gone,
You're always gong to be a friend of mine
Will I see you in heaven
Shine your light from above
With your love I am never alone
Won't you carry me, won't you carry me
Will I see you in heaven
Will I see you in heaven
With your light I am never alone
Won't you carry me, won't you carry me home
