

# The Jesus And Mary Chain, Subway

Some kind of people don't understand  
I've got to turn to the sun  
I've got the upper hand  
When the world turns around  
It turns it turns for you

I guess a whole lotta loving  
Don't mean a thing  
You gotta stand other people  
Don't shout and sing  
And when the fight comes to run  
It runs and runs for you

I guess that all that I can say  
Is just I've gotta have my way  
And there's nothing that you can't see through  
And there's nothing left for me to do  
Funny it's true

I've gotta get get you

And the world it turns  
And the fire burns and burns  
And all the sickest people die in the flames  
And all the twist and turns  
And all the twisted suns  
And when the fire burns it burns for you
