

The Jesus And Mary Chain, Wish I Could

We were searching for a fire
And we settled for a spark
Sparks glow like stars in the dark
Of course they do just like you

And I wish that I could fall for you
Yeah I wish that I could fall for you
Yeah I wish that I could fall

Well Jesus walked
On the water on the water
We walk on dampness too
Yes we do through and through

If we had the time we'd take it
If we had the mind we'd make it
If we had the love
We could leave this world behind

Oh I wish that I could fall
Yeah I wish that I could fall
Yeah I wish that I could fall
