

The Jets, The Truth

I don't want something complicated baby
I just want something simple like the truth

Now's the time
This time i'm gonna take a stand
Hold me honestly
Only if you show you have
Don't keep walking away
Today we gotta to work it out now
understand
Give you yours
Give you mine
Put your heart on the line

I don't want something complicated baby
I just want something simple like the truth
I don't want something fabricated baby
I just want something simple like the truth
Uh oh
Uh oh

Hot love
Cold lies
Can't you kindly compromise
Good - bad
Never had anything but troubled tries
And how come every time I need a little Sincerity its...
Such a crime
Give you yours, Give you mine
Put your heart on the line

I don't want something complicated baby
I just want something simple like the truth
I don't want something fabricated baby
I just want something simple like the truth

Hee

Hee

Look in my eyes, don't look away
Look in my eyes
Hey
Hey
Hey
Hey

I don't want something complicated baby
I just want something simple like the truth
I don't want something fabricated baby
I just want something simple like the truth
Not complicated
Like the truth
Not fabricated
Like the truth
Not educated
Like the truth
Not complicated
Like the truth
