

# The Juliana Theory, Goodnight, Starlight (Demo)

Close your eyes, you're beautiful when you're sleeping  
Tonight may all your dreams come true.  
It's so nice to hold you while you're sleeping  
When I'm sleeping next to you  
And what we got is something special,  
and what we are is a perfect match,  
and three-thousand miles can never come between us  
No matter what we do it's always you and me  
and it's always me and you.

I know sometimes it's lonely while you're sleeping,  
Well it's lonely for me too.  
It's alright just know that while I'm sleeping  
That I'm dreamin of you

And what we've got is something special  
and what we are is a perfect match  
and three-thousand miles can never come between us  
We always have the stars to wish upon from where I'm at,  
and where you are.

Goodnight  
Goodnight  
Goodnight  
Goodnight, love  
Goodnight...
