

# The Junior Varsity, Introduction To The Faint Rem

Try to walk away and trip because i'm falling  
But who's the one who left you there  
Now and then i think i'll catch you  
I'll never catch you never catch you before  
Why need him when you say that you need him now  
Through a cocaine nose  
I suffocate did the way the one that's left  
About him about him  
Listen to what i'm saying to you  
Listen because i won't  
Back down i won't back down  
I suffocate did the way the one that's left  
About him about him  
If this dream is dead then i'm dead  
Dreaming  
This dream is over
