

The Katies, Jesus Pick

(verse)

wake up if you want to be me
I don't dig your own sympathy
When you're flowers in the back of my bed
I like the way you touch the top of my head

(chorus)

when you're throwing all your chinese stars
to the back of me I don't think I want to be so far
free to be a cinema star
whats a matter dear, I don't think I want to hear you

(verse)

ZoSo on the back of an amp 'it's a matter of electrovoicing man'
When you're holding to the back of my hand
It's the front that makes me a man

(chorus)

when I'm dying the back of your car
whats a matter dear I don't think I want to be so far
when I'm catching all the falling stars in you and me

(outro)

don't come back to earth you've been gone too long
lose your heart in me I will come along
never gonna face all that's lost in me
open up your eyes
have another drink
don't come back to Earth, you've been gone too long
lose your heart in me I will come along
Better turn down your eyes and stop walking through air
Open up your smile and jump into the sky
