The Kelly Family, Europe

Once upon a time There was a family Singing through the streets of Europe Singing their dear heart-songs Chorus: They went with open heart to every corner Every street, every land, every town through Europe Then came along a young man Saying what can I do To help you through To help you through my dear Europe He came through the rain Through the storm, through the sorrow Through the hard times we had The prince of Europe Chorus So he knocked on the door The door of my heart He won my heart, he won my love And my fidelity, my prince of Europe So here I am Your wife forever I'm on my knees I promisé you love I promise you love with full fidelity My prince of Europe Chorus
