

The Kelly Family, Like A Queen

In a town far from the city
Was a girl, just a child
She grew up to a beautiful dream
And she walked like a queen when she walked down the street
All the men turned around to see her high heels
She walked like a queen when she walked down the street
All the men turned around to see her go on
Jealousy wasn't a stranger
Everywhere she would be
So she cried for someone to help
I wanna know is anybody gonna help me when I'm down
I wanna know will anybody really help me when I'm down
She walks like a queen when she walks down the street
All the men turn around to see her high heels
She walks like a queen when she walks down the street
All the men turn around to see her high heels
I wanna know is anybody gonna help me when I'm down
I wanna know will anybody really help me when I'm down
She walks like a queen when she walks down the street
All the men turn around to see her high heels
She walks like a queen when she walks down the street
All the men turn around to see her high heels
And at last a fire was burning
As a man held her hand
And held her warm
