

The Kelly Family, Peace On Earth

On a cold winter's night in December
A baby was born
And church bells are ringing forever
Glory to God
Peace on Earth coming from Heaven
Peace on Earth don't be afraid
These are the days of hope
This is the truth we hold
These are the times we're called to lend a hand
These are the days of grace
We gotta stand as one
Follow the shining star
Calling us home
Open your eyes and you'll find me
Right by your side
Take me tonight to where we started
Show me a smile
Peace on Earth coming from Heaven
Peace on Earth don't be afraid
These are the days of hope
This is the truth we hold
These are the times we're called to lend a hand
These are the days of grace
We gotta stand this one
Follow the shining star
Calling us home
We were born to be forever
We were born to be free
We were born to live together, hallelujah
These are the days of hope
This is the truth we hold
These are the times we're called to lend a hand
(Come on)
These are the days of grace
We gotta stand as one
Follow the shining star
Calling us home
We were born to be together
We were born to be free
We were born to live in peace
