

The Kelly Family, Strange world

Flowers and lights are taking my feet of the ground
And I'm flying speeds completely unknown to man
No one can help me once I'm off to dreaming time
I've entered that world and I'm on my own
And I feel it all right

CHORUS:

It's a strange, strange world

That I live in

It's a strange, strange world

At night

Mama Mary, what you got cooking for me this time

I swear I saw the devil running across the room last night

Doctors and dioxine ain't gonna medicate me, no

Darling in your arms I'll be fine with a cup of tea

CHORUS

Well I, I'm a paranoia schizophrenic being

What about the monkey talking nonsense on TV

CHORUS
